By receiving the Festipay card, the Visitor accepts the relevant provisions of the Organizer as compulsory to himself/herself. The Festipay card is a specific cash substitute payment instrument issued by the Organizer that allows its holder the purchase of goods or services only from a closed-loop system of service providers directly contracted by Organizer in the areas used by the Organizer for the purpose of the Festivals. Organizer unilaterally has the right to prescribe the Festipay cards as means of payment at the Festivals, on an exclusive or non-exclusive basis. The Festipay card is for contactless payments. The Festipay card is not a bank card, the Festipay card is a cash substitute payment instrument. The Festipay card contains no information about its holder. As the name of the holder is not indicated on the Festipay card, the Visitor is advised not to give it to others, and to keep it at a safe place.

The amount uploaded to the Festipay card may only be used in commercial units operating at the event venues provided by the Organizer during the duration of the given Festival.

Festipay card Expiration - the validity of the Festipay card expires at the given Festivals as the following:

### 2. REQUESTING FESTIPAY CARD, REGISTRATION

The Visitor can request a Festipay card personally upon arrival to the Festival, at the Festipay card top up point. The Festipay card is valid from takeover, it can be used following

its recharge. The Festipay card can be taken over against a deposit of 500 HUF, which is given back in case of undamaged return of the card. Disabling lost or damaged Festipay card may only be requested by a registered user.

The Festipay card can be used without registration, but the registration increases its security, as only by completing the registration can the Visitor block a lost Festipay card. **We draw your attention to the fact that, in the absence of registration, the electronic voucher embodied by the lost Festipay card can no longer be used by the original holder, and anyone, who finds the Festipay card will be able to use the balance for unauthorized purchases.** With this in mind, we strongly recommend registration! The Organizer shall not be held liable for any damage resulting from non-compliance with the above, loss or damage of the Festipay card, use by an unauthorized person or failure to register, and expressly excludes liability for such damages.

### 3. BALANCE TOP-UP

Cash Top-up (Hungarian Forint Only!):

The maximum balance of the Festipay card and the maximum amount of a top-up is HUF 320,000, with a fee charge of HUF 300 per each top-up transaction.

Top-up with Credit card:

The balance for the Festipay card can also be topped-up by a credit or debit card. The maximum amount of top-up is HUF 320,000. The fee for a bank card top-up is HUF 300 per each top-up transaction.

Top-up via app:

The balance for the Festipay card can be uploaded through a smartphone application after bank card registration. The maximum amount of top-up is HUF 320,000.

The top-up via application with a bank card is processed via Cellum Global Innovációs és Szolgáltató Zártkörűen Működő Részvénytársaság (registered office: 6725 Szeged, Pálffy utca 46; company number: 06 10 000501; tax number: 23471625-2-06) in line with PCI DSS requirements (Payment Card Industry Data Security Standard), through its secure payment system. Other information related to top-up:

The balance is recorded only in Hungarian Forint. Conversion and other costs associated with bank card top-ups in other currencies are charged to the bankcard holder. Complaints are only possible at the Top-up Points, immediately after the top-up transaction, if the discrepancy can be clearly established. After leaving the Top-up Point, the Organizer will NOT accept any complaints!

The Festipay card can be used for purchases in the amounts covered by the topped-up balance. The balance of the Festipay card may be refilled at any time until the end of the Festival but may not exceed HUF 320,000.

#### 4. ACTIVATING THE TOP-UPS VIA THE APPLICATION

If the Visitor tops up the Festipay card balance with a bank card in the mobile application of Festipay Zrt., it is necessary to visit a merchant to activate the Festipay card. On the terminal there, it is necessary to press button "7" during the first purchase. With this operation the topped-up balance will be credited to the Festipay card. As long as the Visitor does not perform this operation, he/she cannot use the topped-up balance.

#### 5. PAYMENT WITH THE FESTIPAY CARD

Purchases can be made at merchants using payment terminals. A terminal consists of two parts:

- (i) a card reader with a display that is fixed to the counter in a clearly visible manner for the Festipay card holder, and
- (ii) a POS terminal located on the counter of the merchant, not necessarily visible to the Visitor.

Purchase process:

- (i) the total amount of the purchase is entered into the cash register by the merchants and the amount is entered into the POS terminal;
- (ii) after the purchase amount is entered, the amount of purchase is displayed on the display of the card reader, and, if the Visitor accepts the sum displayed, the Visitor touches the Festipay card to the reader so that the RFID chip contacts the reader and thus the transaction takes place;
- (iii) the Visitor's voucher balance is debited with the purchase amount. If Visitor has made top-ups through multiple channels (mobile application and on-site), the system will first reduce his/her balance topped up on-site (in cash or by credit card);
- (iv) the new balance appears on the card reader's display. If the transaction has inadvertently contained an erroneous amount or has to be cancelled for any reason, the payment Terminal is able to do so. The cancellation of the transaction is only possible at the terminal on which the transaction was made and only if this was the last transaction of both the Festipay card and the Terminal. Cancellation is not possible in any other case. It is possible to give a tip by using the system, in such case, an amount higher than the actual purchase amount will be charged. We kindly ask Visitors to double-check the amount displayed in such cases. If Visitor wants to add a tip using the appropriate display (customer-side screen) Visitor can choose between 0%, 5%, 10%, 15% or 20% amounts as tips. As long as Visitor does not select one of the given values, the payment transaction will not be completed. The merchant gives a receipt for the purchase. If the purchaser returns or disputes the purchase price of the purchased product, the terms and conditions of the return will be determined jointly by the merchant and the buyer in accordance with applicable law.

#### 6. CHECKING BALANCE

The Festipay card balance can be queried at merchants, Top-up Points, Top-up Machines, and via the Festipay mobile application. The Visitor accepts Festipay Zrt.'s database and statements in relation to the balance of the Festipay card. Festipay Zrt. will investigate complaints and possible abuses of transactions in accordance with applicable laws.
